Education

CMR College of Engineering & Technology (JNTU-H)	2022–2026
B.Tech – Artificial Intelligence & Machine Learning (Minor: CSE–Data Science)	CGPA: 8.59/10
The Hyderabad Public School, Begumpet (ICSE) – Class XII	81.4%
Ramadevi Public School (ICSE) – Class X	87.5%

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, C

Frameworks: React, Node.js, Express, Django, TensorFlow, OpenCV

Cloud: AWS (Lambda, S3, EC2), Google Cloud

Concepts: Distributed Systems, Machine Learning, Deep Learning, Data Structures & Algorithms, REST APIs

Tools: Git, Docker, PostgreSQL, IBM Z, Linux

Internship Experience

Full-Stack & AI Developer Intern — Kodryx AI Dec 2025 – Present (On-site, Hyderabad)

- Developing end-to-end production features using **React, Node.js, Express, TypeScript, PostgreSQL**.
- Contributing to core AI-integration modules enabling seamless ML model deployment within the platform.

AI Engineer Intern — Bvit Solutions Nov 2025 – Present (Remote)

- Engineering AI pipelines for automation, NLP, and CV tasks using **TensorFlow, OpenCV, Python**.
- Designing RAG-based application architecture supporting scalable API-driven inference.

Student Researcher — SAE India Jun 2024 – Jun 2025

- Designed AI subsystems for autonomous drones; improved delivery accuracy and system robustness under edge-case constraints.
- Won **1st Prize at ADDC 24–25** for high-precision GPS–QR navigation system.

Open-Source Contributor — GSSoC'24 Oct 2024

- Contributed patches, bug fixes and feature enhancements to production open-source ML repositories.

Projects

CultureSense — Unified HR monitoring Platform (Link) Nov 2025 – Present

- Built a Robust and Statistical Human Resource Monitoring System with multiple connectors and multiple-level data monitoring **40%**.

CareSync — Healthcare Management System (GenAI) May 2025 – Present

- Developed a GenAI medical report generator reducing patient wait-time by **25%**.
- Architected secure appointment workflows improving scheduling efficiency by **40%**.

Autonomous Drone Delivery System (AI & GPS Navigation) Jun 2024 – Mar 2025

- Engineered an autonomous drone platform with AI-based QR verification and multi-point navigation.
- Achieved **95% delivery accuracy**; won national **SAE ADDC 1st Prize**.

PrimeMedic AI — Intelligent Medical Assistant (Link) Oct 2024 – Apr 2025

- Designed a multimodal health assistant powered by NLP, improving diagnostic confidence by **35%**.

Leadership & Responsibilities

Microsoft Student Ambassador	(2024–25)
Research & Development Coordinator — Entrepreneurship Club	2023–24
CSI Coordinator	(2024–25)
HR & Documentation Head — StreetCause NGO	(2023–25)

Awards & Achievements

- **Top 105 Finalist — Google Solutions Challenge 2025** (Top 1%).
- **1st Prize — SAEISS Autonomous Drone Development Challenge (2024–25).**
- Best Innovative Idea — Telangana State Finance Commission (Ideathon 2024).
- Finalist at: BITS TechXcelerate'25, AI-Autonomous Hackathon'25, Datanyx'24, IEEE GNIT HackArena'24, Megathon IIT-H'24, MGIT HackSavvy'24
